Work Offered

The Vassiliko Cement factory operates on the coast near Limassol in Cyprus. The location was chosen in view of its abundance of raw materials of excellent quality and the proximity to the sea. The Company owns and operates a cement production plant with a new production line of best available technology, operational since 2011, and with a kiln capacity of 6000 tons/day. The plant is surrounded by its own quarries that produce high quality aggregates and raw materials. The Company further owns and operates its own port through which 50% of its clinker and cement production is exported annually. The Company adheres to a strategy of sustainable development, and as such maintains a balanced policy of economic, social and environmental health, operating within a framework of complete transparency amongst all the stakeholders.

Vassiliko Cement Works Public Company Ltd, the largest heavy industry in Cyprus continuously evolving at all levels, business, and environmental technology, with the fundamental principles of continuous quality improvement of products offers the best customer service and respect for the environment, principles which are inextricably linked with the achievement of its strategic goals.
